SUMMARY

Certified Full Stack Web Developer with a dedication to balancing design and function. Has a keen eye for detail and is extremely effective at obtaining the highest level of quality outcomes in the most effective way. A passionate learner who integrates new, complex material quickly and maintains a devoted work ethic. Learned full stack web development in 12 weeks through UCLA's Intensive Coding Bootcamp and successfully created 3 major web applications, with a group, and 22 Github repositories and deployed applications, individually. An innate problem-solver who works well under pressure and nurtures a supportive environment within a group setting and facilitates productive communication.

TECHNICAL SKILLS

Languages: HTML5, CSS, JavaScript, Node, Sequelize

Third Party APIs: JQuery, Bootstrap

Server Requests: Web APIs, Express

Databases: MySQL, MongoDB

Tools: Git, Insomnia, Heroku

PROJECTS

Employee Tracker Database | <https://github.com/lyndseyjw/employee-tracker-database>

- Users can add, delete, and update data in their company's database using command line prompts. Solely backend, this app will return data as a table in Terminal.
- Chief and sole contributor
- JavaScript, Node, NPMs, mySQL

Team Profile Generator | <https://github.com/lyndseyjw/team-profile-generator> | <https://lyndseyjw.github.io/team-profile-generator/>

- Another command line prompt tool for users to enter team information. This full stack project is linked to a stylized HTML page so users can view employee information.
- Chief and sole contributor
- HTML5, Advanced CSS, JavaScript, Node, NPMs

Weather Dashboard | <https://github.com/lyndseyjw/weather-dashboard> | <https://lyndseyjw.github.io/weather-dashboard/>

- A stylized UI where users can view city weather data utilizing backend web API requests. Their searches are saved locally and may be re-retrieved on button click.
- Chief and sole contributor
- HTML5, Advanced CSS, Bootstrap, JQuery, Web APIs

Timed Quiz | <https://github.com/lyndseyjw/timed-quiz-with-saved-high-scores> | <https://lyndseyjw.github.io/timed-quiz-with-saved-high-scores/>

- A simple UI using Javascript to dynamically manipulate the DOM based on user interaction. A useful tool for test providers, this app saves users scores and deducts time upon wrong-answer selection.
- Chief and sole contributor
- HTML5, Advanced CSS, JavaScript

Day Planner | <https://github.com/lyndseyjw/dynamically-updated-day-planner> | <https://lyndseyjw.github.io/dynamically-updated-day-planner/>

- A dynamic UI utilizing moment.js to display the current date and a calendar color-coded based on the current time. Users can save entries locally and update existing entries.
- Chief and sole contributor
- HTML5, Advanced CSS, Bootstrap, JavaScript, JQuery UIs

EXPERIENCE

Interior Design Assistant D&D Creations

2021 – Present
Los Angeles, CA

- Oversee 3 client projects synchronously, creating 10+ room boards per client to track project progress and 2 proposals per week to process order payment and delivery
- Collaborate with design team 24/7 to bring clients the greatest balance of design and function, communicating task delineation and completing 5 tasks minimum daily
- Engineer 30 3D models using Sketchup after measuring 10+ rooms per client home
- Consolidate with third party contractors to reduce company dues up to 30%

Key Accomplishments:

- Spearhead the integration of Sketchup into the company's client portfolio - a self-taught and self-motivated skill, learned in under 2 hours after analyzing company deficits and taking the initiative to meet current production needs
- Awarded praise from CEO for dedication to a flexible schedule and a loyal work ethic

Education Sabbatical Yo San University

2018 - 2021
Los Angeles, CA

- Worked as a nanny while studying for a Masters Degree in Acupuncture and Traditional Chinese Medicine
- Analyzed current market structure and social distancing mandates to realign career goals and implemented a more financially-stable plan to seek education in web development
- Envision merging preventive medical education with web development knowledge as a heightened and diverse skill set I may offer to my future business team

Primary Care Medical Assistant Memorial Clinical Associates

2017 – 2018
Houston, TX

- Ordered and completed diagnostic testing relevant to patients' history of present illness, verified health history, and acquired vitals for 20+ patients per day
- Applied flexible awareness to strict schedules and adapted to caseload requirements, amplifying the number of patients Dr. Shaad Shammas saw per day to 1.5 times more than the other 5 doctors in the clinic
- Fulfilled an average of 5 orders relevant to assessment/plan, wrote an average of 10 referrals per day, and drew up / administered an average of 20 intramuscular and subcutaneous injections per day
- Engaged with patients in a nurturing and respectful manner, answered questions, gave advice, offered support, and dedicated the necessary hours to fulfill their health needs

Key Accomplishments:

- Outperformed my current role as MA by receiving prescribing rights after 5 months, under the authorization of Dr. Shaad Shammas, as an acknowledgment of my dedicated work ethic and reliable level of competence
- Received praise from the head nurse and Dr. Saad Shammas for premier reliability in patient care
- Learned all basic MA training knowledge on the job and quickly implemented new skills practically
