

# Lyndsey Watson

## Full Stack Web Developer

### Summary

Full Stack Web Developer with a dedication to balancing design & function. Has a keen eye for detail & is extremely effective at obtaining the highest level of quality outcomes in the most effective way. An innate problem-solver who works well under pressure & nurtures a supportive environment within a group setting & facilitates productive communication. A passionate learner who integrates new, complex material quickly & maintains a devoted work ethic. A firm commitment to deadlines & consistently submits the highest caliber of product quality possible.

### Technical Skills

Frontend : HTML5, CSS, Javascript

Backend :

### Projects

#### Full Stack Developer Portfolio |

<https://github.com/lyndseyjw/full-stack-developer-portfolio> |

<https://lyndseyjw.github.io/full-stack-developer-portfolio/>

SOLE CONTRIBUTOR

- This project is a one-stop-shop for all of my web applications completed throughout my bootcamp career so clients may preview my creative outlook as well as my commitment to a functional interface.
- HTML5, CSS

#### Random Password Generator |

<https://github.com/lyndseyjw/random-password-generator> |

<https://lyndseyjw.github.io/random-password-generator/>

SOLE CONTRIBUTOR

- This was one of my biggest challenges in the beginning of the bootcamp as it required a non-intuitive integration of algorithms & data structures. Without prior computer science knowledge & with a commitment to problem-solving, I was able to create a product that not only works, but will also check to make sure the user has responded within designated parameters.
- HTML5, CSS, Javascript

#### Band Fanpage | <https://github.com/lyndseyjw/fanpage> |

<https://lyndseyjw.github.io/fanpage/>

SOLE CONTRIBUTOR

- A project that remains special to my portfolio as it is my very first webpage & showcases my ability to integrate complex concepts quickly through autonomous learning & diligent perseverance. I created this webpage before the bootcamp began without prior coding experience & was built using research & problem-solving skills.
- HTML5, CSS, Javascript

**Timed Multiple Choice Quiz with Saved Scores |**  
<https://github.com/lyndseyjw/timed-quiz-with-saved-high-scores> |  
<https://lyndseyjw.github.io/timed-quiz-with-saved-high-scores/>

SOLE CONTRIBUTOR

- I was able to challenge my ability to manipulate the DOM with Javascript after just learning this skill. This project is a useful foundation for applications that will require DOM transitions as the user interacts with the webpage & dynamically responds to specific user movement.
  - HTML5, CSS, Javascript
- 

## Experience

### Interior Design Assistant

Current

Los Angeles, CA | D&D Creations

Measured client rooms & rendered 3D models using Sketchup, a self-taught skill using the application tutorial & self-motivated practice time. Analyzed necessary skills needed to complete projects & took the initiative in filling these roles. Maintained project timelines & product orders. Strict attention to detail while organized client room boards. Managed time & responsibilities to maintain flexibility & adapt to changing schedules. Handled communication with clients & third party contractors. Collaborated with design team to bring clients the greatest balance of design & function.

### Primary Care Medical Assistant

2017 - 2018

Houston, TX | Memorial Clinical Associates

Ordered and completed diagnostic testing relevant to patients' history of present illness, verified their health history, and acquired vitals. Applied flexible awareness to strict schedules & adapted to caseload requirements. Expressed compassion toward patients' current condition through verbal & non-verbal communication. Intensive experience in electronic medical record charting. Fulfilled orders relevant to assessment/plan, wrote referrals, assigned labs to appropriate diagnoses, and drew up / administered intramuscular and subcutaneous injections. After 5 months, received prescribing rights under the authorization of Dr. Saad Shammas. Expected to understand refill protocols and to fill prescriptions in a timely manner while recognizing treatment and dosage information of common western medication. Engaged with patients in a nurturing and respectful manner, answered questions, gave advice, offered support, and worked the necessary hours to fulfill their health needs

---

## Education

### UCLA Coding Bootcamp Certificate

Los Angeles, California

A twelve-week intensive course immersing in the fundamentals of coding with a focus on deploying applications both as sole contributor & co-contributor. Applied skills immediately after learning a basic overview & expected to problem solve / research issues preventing proper deployment. A fast-paced course with two large projects due every week with mini projects sprinkled within. All project skills progressively built onto one another to where full stack applications were deployed from scratch toward the end of the program. Gained technical programming skills & experience in computer science applied to JavaScript, HTML5, CSS3, Javascript, JQuery, Responsive Design, Bootstrap, Handlebars.js, Local Storage, React.js, API Interaction, JSON, AJAX, Heroku, Github, MySQL, MongoSB, Node.js, Express, User Authentication, PWAs, MERN Stack, Quality Assurance, Python, Java, Amazon Web Services, & Firebase

---

University of Georgia  
Athens, GA

Bachelor of Science in Health Promotion with a Health Services Area of Emphasis
